

# SME Smart IP Scheme

Dr Jon Carr

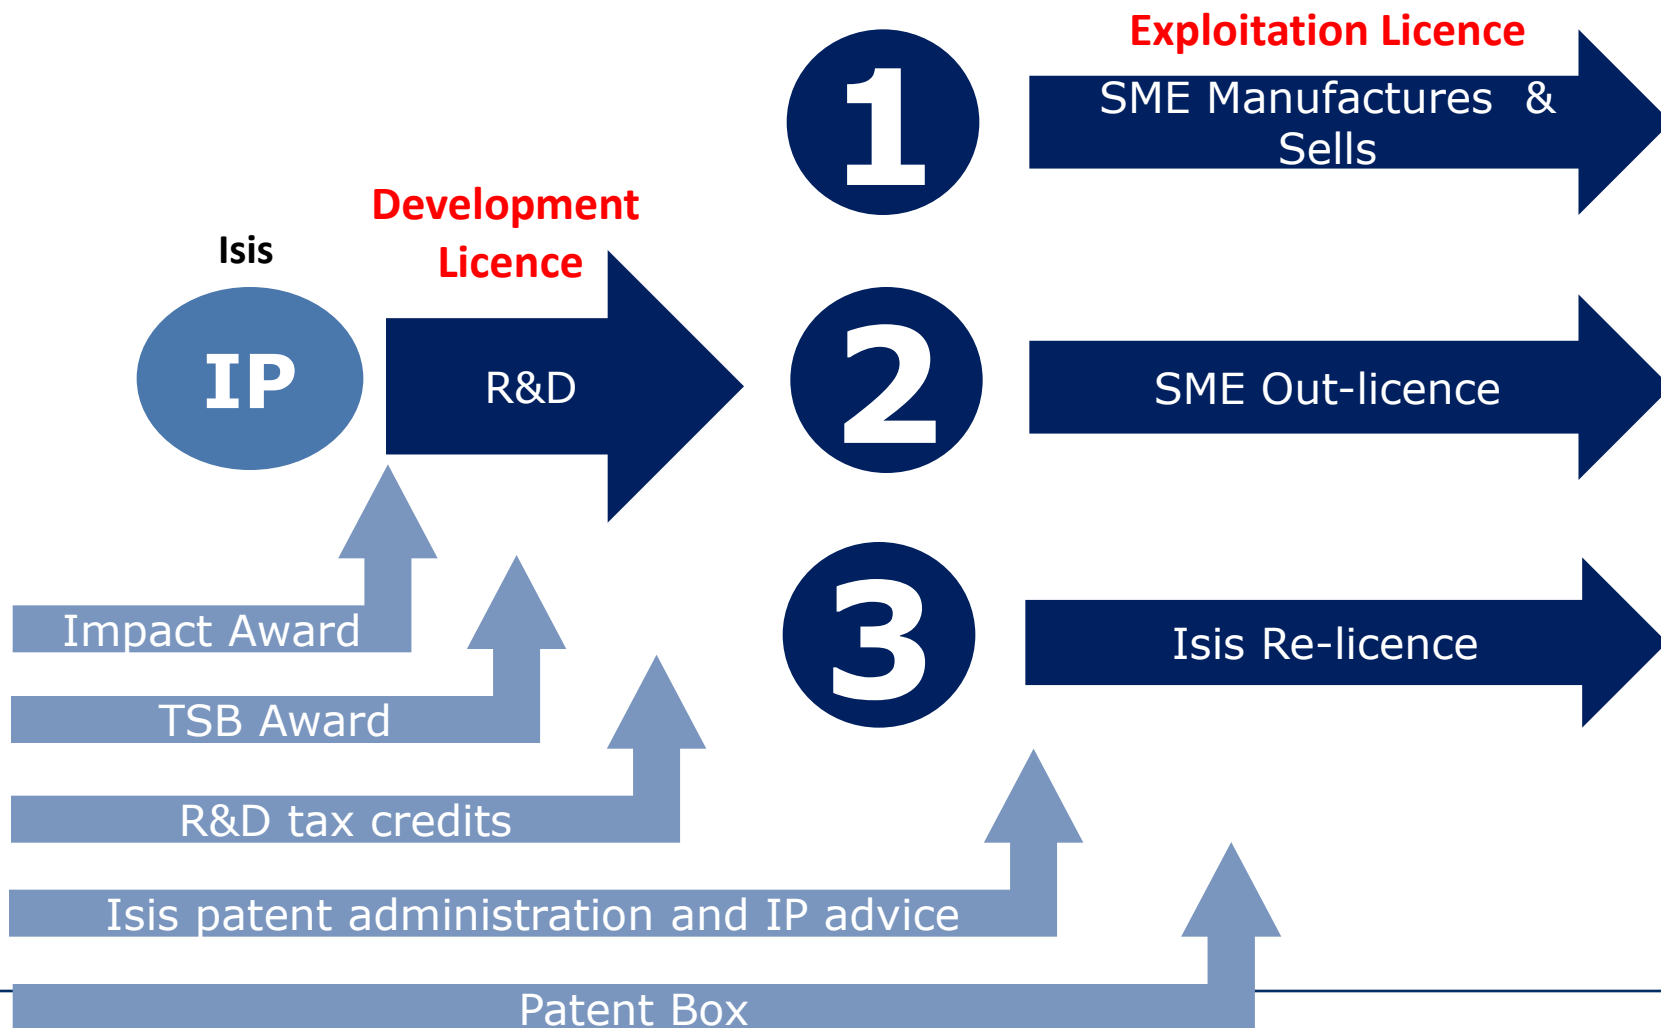

Begbroke Breakfast Seminar October 16<sup>th</sup> 2014

# SME Smart IP Scheme – 2 stages

... adds more flexibility and reduce business risk for SME

# SME Smart IP Scheme – 2 stages

# UK IPO Fast Forward Award 2014

 Intellectual Property Office

 2014 Fast Forward Competition

The Intellectual Property Office is pleased to award

*University of Oxford*

the sum of

**£77,000**

to fund their 2014 Fast Forward Competition project

*“Encouraging IP uptake for SMEs through the Oxford Isis Smart IP Scheme”*

Intellectual Property Office is an operating name of the Patent Office

# Development Licence

- 'Controlled' 6-12 month Development Plan
- Licence gives exclusivity (may have field/territory restricted)
- **Flexible fee structure – part of patent costs/signing fee can be deferred.  
e.g. IPO award can cover £5k of patent costs**
- Leads to the Exploitation licence
- SME will have a share in future net receipts if they complete Development Plan
- Isis will help with funding applications during this period (SME as partner)

## Pilot Scheme:

- 20 projects - <http://isis-innovation.com/technologies-available/technology-licensing/sme-smart-ip-scheme/>
- 2 Development Licence completed – Project 9281 (Magnetic Device) and Project 8187 (Neutron Detector)
- 1 Development Licence in final stages of negotiation

## Appropriate Projects:

- Patented IP
- Life Science: Diagnostics, Research Tools, MedTech
- Physics Science: Prototype to set specification; Commercial Prototype to test market
- ‘Short’ development stage
